ARCHITEKTURFORUM ZÜRICH

Learning from Tokyo

LEARNING
FROM
TOKYO

«Learning from Tokyo» is a symposium and an exhibition in Zurich – organized by the «Learning from Tokyo»-Group in cooperation with Architekturforum Zürich – that showcases small scale housing projects by young, creative architecture offices in Japan.

Team

Hiromi Hosoya (Hosoya Schaefer Architects AG / Partner), Markus Schaefer (Hosoya Schaefer Architects AG / Partner), Ryoko Ikeda (Hosoya Schaefer Architects AG / Architect), Sasha Cisar (Bob Gysin + Partner BGP Architekten / Architect and Theorist), Mitsuhiro Kanada (ARUP Japan / Structural Engineer)

Learning from Tokyo Group

«Learning from Tokyo» is a not-for-profit project by the «Learning from Tokyo Group» initiated by Hiromi Hosoya and Markus Schaefer and established in 2011. «Learning from Tokyo» received grants from the Japan Foundation, Sakae Stünzi Foundation and the IKEA Stiftung Schweiz and is supported by ANA, All Nippon Airlines, Zurich Airport and the City of Zurich. «Learning from Tokyo» will be the topic of a forthcoming issue of the group's media partner ARCH+. The logo of «Learning from Tokyo» has been designed by büro destruct (www.buro-destruct.com), the website «www.learningfromtokyo.ch» has been made possible by iA (informationarchitects.ch).

Learning from Tokyo

«Learning from Tokyo» is a symposium and an exhibition in Zurich – organized by the «Learning from Tokyo»-Group in cooperation with Architekturforum Zürich – that showcases small scale housing projects by young, creative architecture offices in Japan.

The symposium will feature some of the protagonists of this new generation of architects and aims to establish a dialogue with Swiss architects, planners, city officials and the interested public. The topic contrasts two very different cities and cultures which in many unexpected ways still have a lot in common.

The exhibition will focus on the quality and diversity of living space produced on small building lots with limited budgets in the center of a city such as Tokyo.

«Learning from Tokyo» ist eine Ausstellung und ein Symposium – organisiert von der Gruppe «Learning from Tokyo» in Zusammenarbeit mit dem Architekturforum Zürich – über neue, innerstädtische Wohnbauten junger, innovativer Architekturbüros aus Japan.

Das Symposium stellt einige der Protagonisten dieser neuen Generation japanischer Architekten vor und ermöglicht einen Dialog mit Schweizer Architekten, Planern, Vertretern der Stadt Zürich und der interessierten Öffentlichkeit. Dabei treffen zwei sehr unterschiedliche Städte und Kulturen aufeinander, die dennoch viele überraschende Gemeinsamkeiten aufweisen.

Die Ausstellung zeigt die Qualität und Vielfalt, die auf kleinen Grundstücken mit geringen Budgets im Zentrum einer Stadt wie Tokyo erzielt werden können.
